Adams Trail-A-Bike & Runner

two thousand ten
deux mille dix

www.trail-a-bike.com

introduction

In 1986 Adams was started around a simple idea: Create great products that make riding a bicycle easier and more fun for the whole family. This idea spawned the Adams Trail-A-Bike, a name that is now synonymous with an entire category of bicycles. Providing an easy solution for getting kids involved in cycling and a safe way to introduce proper riding and traffic habits, the Trail-A-Bike took off.

After more than 20 years the line has evolved to include six models of the legendary Trail-A-Bike, a plethora of accessories and add-ons, and the Runner – now considered by many to be the best way to introduce young children to riding a bicycle.

We're proud of what we've created and continue to follow our original idea by making the best products we can for families everywhere. Like most things in life there are many options, but there is only one original; The Adams Trail-A-Bike.

6 six reasons to buy a trail-a-bike for your family

- 1 With the available accessories a Trail-A-Bike can last for years, easily accommodating a child from the age of 3 to 8.
- 2 More compact than any competitor; our unique folding mechanism is easy and safe to use.
- 3 Thanks to our patented top tube the Trail-A-Bike is the most versatile design available; easily accommodating 26" and 700c wheel lead bicycles.
- 4 For longer rides and family outings our proprietary design allows the use of pannier bags without interference, which greatly increases versatility.
- 5 A low seating position keeps the child's center of gravity closer to the ground for more stability.
- 6 People love choice and with a wide range of models and colors, there is a Trail-A-Bike to match any lead bicycle and personal style.

original**folder**compact

Photo: Margus Riga

Just like its namesake this is the Trail-A-Bike that started a movement, but in compact form to fit smaller children. All of the safety and convenience from years of development wrapped up in a compact package and backed with a lifetime warranty so you can ride with confidence.

- Compact folding frame design will accommodate a rider with a 2" shorter inseam than the Original Folder 1 model
- Shorter reach, shorter cranks, smaller chain ring and a narrower handlebar fits smaller riders just right
- Lower center of gravity gives parents and children increased stability
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- With a full chainguard and bashguard it's as durable as it is fun
- Includes a safety flag, because safety is the first concern with children

Load rating: 85 lbs (38.5 kgs)
For ages 3-5 years

original**folder**one

Simplicity can be a wonderful thing. An evolution of the model that created a new category of bicycles back in 1986, the Original Folder is the perfect way to get younger kids out for a ride with the whole family.

- Simple single-speed is easy to ride
- Folding frame for easy storage and transport
- Patented design will fit most 26" and 700c lead bikes
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- With a full chainguard and bashguard it's as durable as it is fun
- Includes a safety flag, because safety is the first concern with children

originalalloyfolderone

Lightweight and versatile the Alloy Folder is an aluminum version of the Original Folder. It's everything that our consumers have come to love about Trail-A-Bike, in a lighter package.

- Simple single-speed is easy to ride
- Lightweight alloy folding frame for easy storage and transport
- Patented design will fit most 26" and 700c lead bikes
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- With a full chainguard and bashguard, it's as durable as it is fun
- Includes a safety flag, because safety is the first concern with children

Metallic grey
Weight: 20.5 lbs (9.2 kgs)
For ages 4-6

originalshifterseven

For longer rides, little legs can get tired so we've added gears to help the young ones have an easier go of pedaling. Safety and performance are combined with the Original Shifter 7 – for the family that rides together.

- Easy-to-use Shimano 7-speed drivetrain
- Folding frame for easy storage and transport
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- Outfitted with a bashguard to protect the chainring
- Includes a safety flag, because safety is the first concern with children

Weight: 26 lbs (11.8 kgs)
Load rating: 85 lbs (38.5 kgs)
For ages 4-6

foldertwentyfour

Bigger wheels for bigger kids; to make sure the older kids don't get left behind on the family ride we created the Folder 24. Combining the proven design of the Original Folder with the convenience of seven speeds and 24" wheels, it's good fun for everyone.

- Easy-to-use Shimano 7-speed drivetrain
- Folding frame for easy storage and transport
- Larger frame will accommodate older riders
- Patented design will fit most 26" and 700c lead bikes
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- Outfitted with a bashguard to protect the chainring
- Includes a safety flag, because safety is the first concern with children

145960-10-01 Silver
Weight: 27 lbs (12.3 kgs)
Load rating: 85lbs (38.5 kgs)
For ages 7-10

foldingtandem

A proven design gets a new twist. With the added convenience of a folding frame, the Tandem gives you seven speeds and seats for two; bring twice the number of kids for twice the fun.

- Easy-to-use 7-speed Shimano drivetrain
- Folding tandem frame for easy storage and transport
- Patented design will fit most 26" and 700c lead bikes
- Comes with adjustable stoker stem to fit a wider range of kids
- Sturdy steel hitch with 4 shim options to work with almost any seatpost
- Outfitted with a bashguard to protect the chainring
- Includes a safety flag, because safety is the first concern with children

145970-10-01 Black
Weight: 34 lbs (15.45 kgs)
Load rating: 125 lbs (56.8 kgs)
For ages 4-6

140272-01

Everyone has to start somewhere, and Runners are a great place for kids to begin the adventure of learning to ride a bicycle. Simple and safe, these little bikes have no pedals or chain and are regarded by many to be the best way to teach children balance before taking on the challenge of riding a bicycle by themselves. Say goodbye to training wheels.

- Designed to help develop balance and motor skills, speeding up the transition to a pedal bicycle
- Almost eliminates the need to use training wheels when graduating to a 2 wheeler
- Sturdy steel frame to take the worst abuse kids can dish out
- Quality ball bearing headset for long lasting fun
- Large, comfy saddle with adjustable saddle height to offer multiple seating positions
